

How to apply for incoming Erasmus Students

Students interested in applying for this project have to contact the academic coordinator of this project. Students selected by their home institution are invited to register in order to get registration number. Once the application form has been completed the candidate will have the possibility to prepare a preliminary study plan (optional), using an instrument with direct access to the complete course catalogue of receiving institute. Applications from students who have been officially nominated by their home university will be considered.

A confirmation message will be sent to all accepted exchange students during the weeks after deadline. A formal acceptance letter for exchange students applying for visa can be downloaded by authorized staff (nominators) at the partner university. In due time before arrival, a detailed handbook is sent to accepted incoming students.
