Dear Sir,

This has reference to our visit on April 12, 2017, regarding institute-industry interaction in the area of soft ferrites. We thank you for your valuable time and fruitful discussion.

As discussed, kindly let us know the suitable dates to visit our university for the future possibility of joint collaborative work. In this regard, we will be happy if you could deliver an expert talk to our master/Ph.D. students.

Further, I attaching the available central characterisation facility at Thapar University for ready reference.

Looking forward

Best regards

Puneet
